

**Wireframe Documentation**

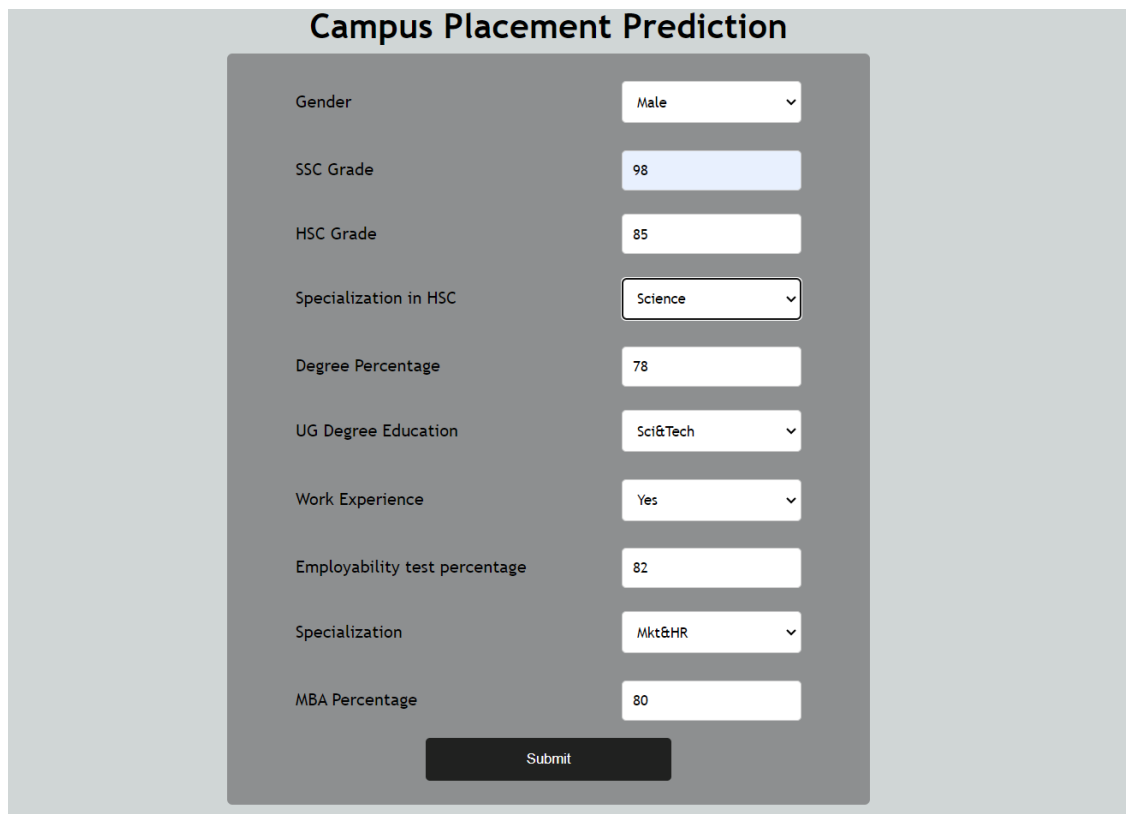

**Campus Placement Prediction**

# Home Page

We have divided Campus Placement Prediction website into two webpages:

1. Home Page
2. Result Page

We will see a Homepage which will ask for User Inputs with various fields associated for the predictions and predicts whether he/she gets placed or not.

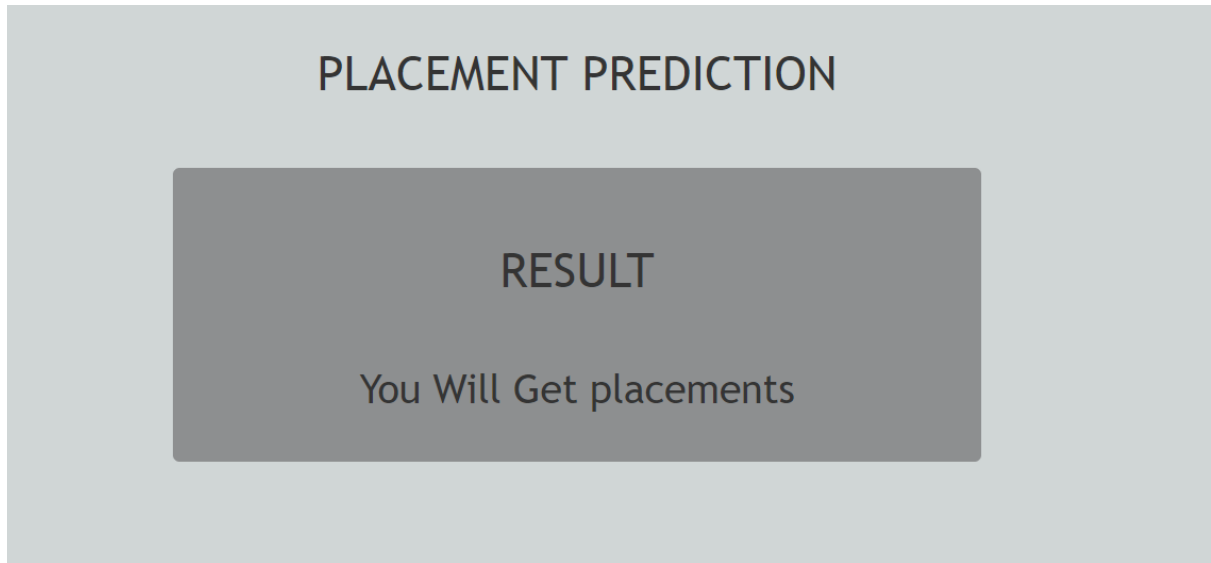

The screenshot displays a web form titled "Campus Placement Prediction". The form is set against a dark gray background and contains ten input fields arranged vertically. Each field is labeled on the left and has a corresponding input area on the right. The inputs include dropdown menus for "Gender", "Specialization in HSC", "UG Degree Education", "Work Experience", and "Specialization", as well as text boxes for "SSC Grade", "HSC Grade", "Degree Percentage", "Employability test percentage", and "MBA Percentage". A "Submit" button is located at the bottom center of the form.

Field	Value
Gender	Male
SSC Grade	98
HSC Grade	85
Specialization in HSC	Science
Degree Percentage	78
UG Degree Education	Sci&Tech
Work Experience	Yes
Employability test percentage	82
Specialization	Mkt&HR
MBA Percentage	80

Submit

# Result Page

Based on User's input, our Campus placement prediction System will predict whether he/she gets placed or not. A sample view of Result page showing results is below:

# About Page

In this Sample, we have given space for Heading & for Texts.
